

Study Plan for Histoire d'une revanche

The first time you do this it will take you longer. As you continue to read on a habitual basis, you will be reading more rapidly. Maybe the first time you will take 30 minutes to read. By the end of the semester, you will be reading the same amount of text in about 1/3 the time. Remember, you are reading for main ideas. Don't look up every word you don't know. On the 3rd reading, if you are still having trouble with a word and it is preventing you from understanding the passage, then look it up. Add it to your vocabulary list and study it.
